

Set Contributions **Choose Investments** Consolidate Retirement Savings

Choose how you want your contributions invested

Select a percentage of your total contribution to assign to each investment. These total percentages must equal 100%. Click an investment to view quarter-end returns, risk, fees, and expenses.

Your plan default percentages are prefilled in the table below. To change them, enter a new desired percentage.

The performance data featured represents past performance, which is no guarantee of future results. Investment return and principal value of an investment will fluctuate; therefore, you may have a gain or loss when you sell your shares. Current performance may be higher or lower than the performance data quoted.

Before investing, consider the funds' investment objectives, risks, charges and expenses. Contact Fidelity for a prospectus containing this information. Read it carefully.

Total returns are historical and include change in share price and reinvestment of dividends and capital gains, if any. These figures do not include the effect of sales charges, if any, as these fees are waived for contributions made through your retirement plan. If sales charges were included, returns would have been lower. Life of fund figures are from the inception date to the period shown.

An investment in any money market fund is not guaranteed by the FDIC or any other government agency. Although the fund seeks to preserve the value of your investment at \$1 per share, it is possible to lose money by investing in the funds. Past performance is no guarantee of future results.

Exchanges between competing funds may be subject to restrictions.
